

Haiti experiencing a Cultural Earthquake

LOVE Takes Root became involved with Haiti after the 2010 earthquake.

We decided to invest in the future of children for them to be able to change their lives and community. Our sponsors have made a great difference in each of the lives of the children at La Concorde. They have given financial support, love, care and prayers. For the children, the knowledge that in the world you are special to someone has increased the idea of belonging.

Presently Haiti is having a cultural earthquake. Civil unrest, gang violence, lack of food, no travel, assassination and COVID-19. LOVE Takes Root is as invested to empower the future as we were at our beginning during this time.

Exciting Update!

La Concorde has added 3 new children in the last few weeks. We have had to provide increased temporary funds for food. We are asking everyone to share our story and ask friends, family and community groups to consider becoming a sponsor.

It is \$50/month with 3 letters or pictures requested a year. The donation pays for food, school uniform, books, school tuition, clothes and health care.

Please reach out if you or anyone you know would like to become a sponsor.

Choosing Education to cultivate the Future

La Concorde School is in the process of adding 11th and 12th grade classrooms this summer! In a country with only a 7% high school graduation rate, LTR did not originally have the finance to build a full secondary school. We now have students that have progressed through the grade and are entering 11th grade. This building project has employed over 25 Haitians and is a sign of hope during a time of such despair.

LOVE Takes Flight Update

The first group of candidates for LTF will be moving into a new apartment this month! They have taken life skills modules and are getting businesses launched. Three of these students are 2 years from Secondary School graduation and LTR will support them in continuing.

Two of the candidates will be raising chickens for meat.

The two others will be selling frozen water, pop, and fruit juice. Exciting to empower young adults to become productive citizens in the community!

Follow us on our continuing journey on Facebook and Instagram!

Love Takes Root would not be possible without everyone's love, dedication and support. With much LOVE,

LOVE Takes Root Team
