

We hope you all had a nice Thanksgiving!

Please consider LOVE Takes Root when donating during Giving Tuesday tomorrow!

We appreciate your support year round, but especially during this time.

Donate [here](#)

Giving Tuesday is TOMORROW November 30th! LOVE Takes Root is asking donors for extra money for food.

The inflation rate in Haiti for 2020 was 22 %. Consider a gift of food for those who have little this Holiday Season.

Haiti has had a very difficult year and life there is hard, but with the sponsor's support each child is attending school. We have been able to send extra money for food and clean water is still running.

We are thankful we have solar power and are not using a generator for electricity. There is no gasoline available to run generators, which is why Hospitals are not open.

LOVE Takes Root Medical Clinic is now open through the day and evening. They have electricity from the solar power and have clean filtered water. The Haitian medical staff has expanded and are providing a free clinic one Sunday a month.

Please consider donating to help continue to send money for food and water.

Thank YOU!

LOVE Takes Root wants to thank every sponsor for their support.

Love Takes Root would not be possible without everyone's love, dedication and support. With much LOVE,

Have a great week!

LOVE Takes Root Team
