

May the winds of March blow away despair and blow in Hope

Our recent Trip to Haiti was full of homecoming joys! Although we found Haiti in a very difficult situation and with gangs controlling the Capital of Port Au Prince, travel is impossible. The cost of food is extremely high and supplies are not easy to purchase. There is a heavy blanket of despair that we had not encountered in the past. This despair was felt for all Haitians we encountered no matter their economics or role in the community. We were thrilled that La Concorde School is open and full. And the children living at La Concorde Orphanage are well.

**Thank you for the donations to increase the money we are sending for food!
We are going to try and continue this amount for the next 6 months.**

With the change of season it renews our spirits to work to change lives, our lives and others lives. LOVE Takes Root believes when you change the life of a child you change the future of our world. We are calling you to action.
